

SLAUSON CHOIRS

SIXTH GRADE EXPLORATORY CHOIR EXPECTATIONS

*Singing is fun! Singing is a skill!
Singing becomes more fun as one's skill level rises!*

Choir members need to respect the contributions of others and work to make their own positive contributions to the class. Courage - Chemistry - Competence

Every choir member is expected to participate in every activity of the class every day they are in class. Singing is a physical skill and requires consistent practice over time. This practice happens mostly in our choir room, with some at home. Some of this practice may not be traditional singing!

Every choir member is expected to work on specific music reading and theory skills to improve his/her musicianship. These will be tested after they are introduced and practiced in class. Occasional practice at home is suggested.

SKILLS WE WILL BE WORKING ON INCLUDE:

- 5-Note Scale
- Major Scale
- Scale By Thirds
- Duple Rhythms
- Basic Octave Melody
- Treble and Bass Clef Note Names
- Solfege Syllable Identification
- Basic Stepwise Sight-Singing

Please email me with any questions, concerns or suggestions. You are also welcome to visit us at school!

Thank you for encouraging your child to sing!
